**Special Projects Track:**

Keynote/VIP Forum, etc.: This special forum is designed for management and supervisory personnel and a timely topic.

**Cal/OSHA Regulatory Track:** **New for 2012**

### **Attendee Profile**

Expo attendees represent construction industry associates and professionals as well as employers/employees representing general industry segments from the state of California with the majority of registrants representing the greater northern California region. With seven year of success this event draws attendee registrations from outside the state as well. Attendees are comprised of project managers; safety/health/environmental professionals; superintendents; principals; warehouse facilities managers; specialty contractors; foremen and lead-men, laborers, and students representing both commercial and residential contractors; heavy civil, public works and municipalities and students from colleges and workforce development agencies. From the PEMA side, represented are fleet managers, supervisors, mechanics, and parts technicians from public fleets in northern California along with other professionals in the vehicle and equipment field. Attendees reflect a wide-range of experience within their industries, who are seeking to further enhance their job skills or to keep up-to-date with compliance certifications and required training.
